The Bouquet: Fall, Grow by Erwin Windu Pranata

For Erwin Windu Pranata, gardening has opened up new perspectives as a source of inspiration. Observing how plants can be very sensitive to the balance of nature, he studies them from seed to sprout, to flower and fruit, and how they shed in a natural cycle of life. He believes this cycle teaches us to respect the balance and be patient, opening our eyes that we, too, will continue to grow and develop. As a site-specific inflatable sculpture inspired by this observation, presented by Bibit, the widely acclaimed digital investing app, "The Bouquet: Fall and Grow" invites us to respect nature and its cycle of life.
